### THE SOUTH'S NEWLY SWOLLEN CITIES

The industrial revolution is NOT over. The world has been painfully trying to adjust itself to it for a century. Handicraft has moved out of the home into the factory; modern history is built on that transfer.

It has depleted the country, jammed the cities.

It goes on today as never before. Census figures, coming out of the South, show what the industrial revolution means to that hitherto largely cow that can't be beat, and she stays works.

### RIVETS MAKE STEEL FURNACE GAS-TIGHT

Lennox Torrid Zone Has Revolutionized Warm Air Heating in Thousands of Homes

The manufacturers of this unusual warm air furnace have taken a lesson from the builders of locomotive boilers, tank cars and sub-marines. The Lennox Torrid Zone is made of boiler-plate steel. It is hot-riveted and cold-calked for safety and permanence. No gas, dust or smoke can escape into the rooms of your home. But safety and cleanliness are

not the only improvements the Torrid Zone brings. It furnishes the vital humidity lacking in so many homes during the heating season. The Torrid Zone humidifier has twice the evaporating area of ordinary water pans right inside Mr. and Mrs. H. J. Dean visited Mr. the casing and is over the firing and Mrs. Wm. McCracken on Sunday. doors for rapid evaporation. It can eliminate in your home that kilndried atmosphere which causes sore throats and colds and makes furniture crack and loosen at the joints. Burn your favorite fuel in the Lennox Torrid Zone-hard or soft coal, coke, lignite, wood, gas or oil - and save money. Plans and estimates quickly furnished for all types of buildings. Factory engineering service for special problems. Made by the Lennox Furnace Company, Syracuse, N. Y.—Marshalltown. Iowa—Toronto, Canada.

# Lila Lee reveals the way to be Winning

"EVERY normal girl wants to be cap-tivating," says Lila Lee, the girl whose dark fascination has made her an adored favorite on the screen. "And every girl can be if only she will keep her skin lovely.

"For smooth, soft skin has an irresistible charm-a charm which every screen star, certainly, knows she must have.

"Hollywood directors discovered long ago that only with ravishingly beautiful skin can a girl win her way into the public's heart.

"When you face the glare of the great

# Grover Whalen To Go Before House Committee Friday

House Immigration Committee Will Hear What Whalen Has To Say About Charges

HOLY NAME RALLY SUNDAY EVENING

By WILLIAM S NEAL, International News Service Staff Correspondent WASHINGTON, May 6 .- The call-

ing of Police Commissioner Grover Whalen of New York before the house immigration committee is only a preliminary step toward what may beceme a sweeping investigation of communism in the United States and the alleged propaganda of Soviet Russian agencies, it was disclosed to-

Disregarding suggestions that congressional inquiry might disturb Russi-American trade relations, the committee may call officials of the state and labor departments and patriotic societies before it.

The whole field was canvassed in secret session of the committee. The request of Whalen to appear Friday was rescribed as a preliminary move to determine how far the committee should go. Whalen will be questioned behind closed doors.

The house rules committee also may act this week to authorize an official investigation by a house committee of five members, and a fund of \$25,000 to employ investigators during the summer months.

This resolution, sponsored by Rep. Fish (R) of New York is favored by Rep. Snell (R) of New York, chairman of the rules committee. Fish'declared Republican leaders of the house have endorsed the inquiry "and there isn't the slightest doubt but that it will te authorized."

Both Rep. Johnson (R) of Washington, chairman, and Rep. Box (D) of Texas, ranking Democrat, of the immigration committee declared they have received information privately tending to confirm the Whalen ex-

# **Chest Budget For** Community Is Lowered This Year

Week Of May 19 Is Set Aside As Community Chest Week

ELLWOOD CITY, May 6-The budget for the 1930 community chest campaign to raise funds to support this city's welfare institutions was fixed at \$37,500 at a meeting of the board of directors of the Chamber of Commerce, who also act as directors of the chest, held in the chamber offices yesterday afternoon.

The budget of \$37,500 is \$7,750 less than last year. This amount was finally determined after a lengthy study of current conditions. The number of contributors, it is felt, will be somewhat reduced this year because of unemployment and for this reason the budget was cut to a minimum. The directors stated however, that it will be necessary to maintain individual quotas and wherever possible increase contributions in order to reach the goal set.

The fund is raised yearly to take care of the following social agencies in Ellwood City: Ellwood City Hospital, Community Service League, Girl Scouts, Boy Scouts, and the Hospital

The date for the campaign has been set for the week of May 19th. The Community Chest committee of the Chamber of Commerce will meet and begin work on the campaign plans immediately. This committee as appointed by President Cloak at the beginning of the year is composed of the following men: H. N. Wasser, chairman, W. A. Kerr, W. R. Thompson, M. Edelman, H. E. Helling, W. R. Johnston, and C. A. Adams.

# in a cigarette it's Taste

WHAT INTEGRITY is to a public official, taste is to a cigarette-the one quality that wins and holds public confidence and esteem.

ON TASTE AND TASTE ALONE, Chesterfield continues to gain smokers, both men and women. Chesterfields are mild - not strong or harsh - yet they have richness of flavor and aroma. They are not insipid or tasteless.

WITNESS THE STEADY GROWTH in the popularity of Chesterfield - a popularity which proves that with smokers, as with us, it's "TASTE above everything".

We state it as our honest belief that the tobaccos used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price. LIGGETT & MYERS TOBACCO CO.

# Has Exciting Time With Remodeled Car, Is Badly Burned

CLARION, Pa., May 6.—Robert Best of Nickleville is suffering from burns about the hands and body caused by a peculiar accident. He had recently purchased and made over an old model car. It refused to start by ordinary methods and was towed a distance by a team of horses to start After Best had it going, he drove to a filling station and ordered that gasoline be put in the tank under the seat while he left the engine running. Some of the gasoline spilled over on the hot exhaust pipe and took fire. When he attempted to jump out of the window of the coupe, he caught his foot in the steering wheel and before he could free himself, a large portion of his clothing was burned and his hands severely injured.

UNUSUAL ADVANTAGES COMBINED EXCLUSIVELY IN

THE RESULT OF A MORE COMPACT FREEZING UNIT

Achieved after 12 years' experiments

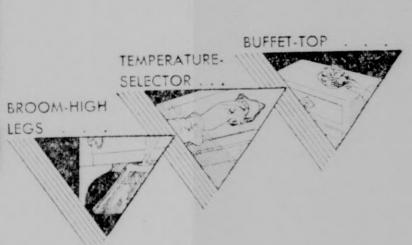

TO find these three refinements in one refrigerator is to find I the new Westinghouse. To find the new Westinghouse is to find the latest, most complete refrigerator! It has the sixtyinch high, flat Buffet Top - which saves steps to near tables when dishes must be transferred. The Temperature Selector a flexible control of the freezing speed - conveniently located -easily adjusted. And Broom-High Legs which simplify sweeping. There's also the practical beauty required in trim kitchen equipment. The cabinet is symmetrical, lustrous . . . and whether finished in porcelain enamel or lacquer-on-steel, it is easily kept immaculate.

This is the first refrigerator to meet the standard of Westinghouse! For over 12 years, great electrical engineers conducted experiment after experiment in an effort to perfect a freezing unit small enough, compact enough to tuck under the hood of the cabinet. They produced a freezing unit simply constructed, thoroughly built - hermetically sealed to eliminate all danger of dust or disturbance . . . a mechanism warranted to give years of satisfaction.

It has taken Westinghouse a long time to devise a refrigerator which fulfills all requirements of capacity, convenience, and comeliness. It will take you but a moment to recognize the additional advantages it affords. Stop in soon, and see
